CLIMATE ACTION PLEDGE

POWER DOWN -
SAVE ENERGY

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- audit our energy use
- switch off lights and all electrical equipment
- use natural light when and where possible
- create 'switch off' reminder labels
- use a renewable energy provider
- find out how much solar energy our roof could produce
- change our lighting to LED

This will reduce bills, reduce carbon emissions, use renewable resources, improve wellbeing and by choosing renewable energy we can create change.

POWER DOWN - SAVE ENERGY

Rethink Reduce Recycle

LUNCHES
FREE OF WASTE

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- use a reusable lunch box
- eat fruit from or that comes in its own natural packaging
- use a reusable bottle for water or juice
- buy local and seasonal food
- reduce food packaging
- reduce food miles
- use glass milk bottles
- compost our food waste
- question where our food comes from

To reduce waste and food miles. To save money, carbon and our environment. To support local jobs.

LUNCHES FREE OF WASTE

EXERCISE,
PLACE TO PLACE

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- walk, bike or scoot to get around
- car share
- use a bus
- create a walking bus
- calculate the distance travelled and the carbon saved
- improve the air quality around us

To reduce air pollution, reduce carbon emissions, save money, improve health and wellbeing, have fun and discover new things.

DEVELOP HOMES
FOR NATURE

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- build hedgehog homes and create safe routes for them 'hedgehog highways'
- put up bird boxes and bat roosts
- create an insect hotel
- leave a messy area for wildlife
- leave areas of grass unmown
- switch off external lights
- create a pond
- plant a hedge
- plant trees

To help wildlife thrive, to support our understanding and help increase biodiversity. To benefit our health and wellbeing.

DEVELOP HOMES FOR NATURE

GROW A GARDEN

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- create a vegetable garden
- plant an orchard
- create a sensory garden
- plant native trees
- grow a vertical garden
- create a night-time pollinating garden
- plant for different seasons
- gather seeds to replant
- plant a meadow
- create a wildlife garden

To capture carbon, reduce food miles, produce food, make good use of space and provide shade and shelter. Reduce runoff, soil erosion and flooding. Improve air quality and health and wellbeing. Support biodiversity and learning.

GROW A GARDEN

EASE PRESSURE ON
THE WATER

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- monitor the amount of water we use
- promise to turn off taps
- check for leaks and dripping taps
- create 'turn off' labels
- install water butts
- find a way to collect and reuse water
- install a grey water harvesting system
- plant to reduce run-off
- install dual-flush or 'hippos' in toilet cisterns
- convert an already soggy area into a bog garden

To conserve clean water, reduce carbon, save money and energy, support life, minimise the effect of drought and flooding.

STAND PROUD
AND SHARE

Rethink Reduce Recycle
Repair Reduce Refuse

WE CAN

- work together to make positive changes and impacts
- reduce the amount of carbon we use
- increase our carbon storage
- understand that our actions will have consequences
- feel empowered to tell our story
- celebrate our achievements
- take less and give more

To conserve, understand, celebrate and appreciate our amazing world.
