

Puddle Perimeter

A fun activity with puddles!

Some people don't like the rain but we think it's a great time to get out and about to enjoy and learn in puddles. So, grab your wellies and waterproofs, **some string or wool**, a **ruler** and a **tape measure** and make the most of the puddles around you.

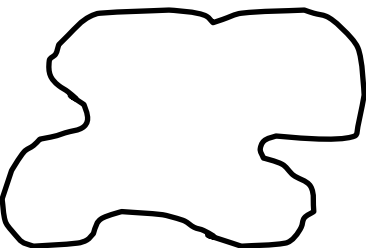

You will need:

Using the equipment above can you measure the **width**, **length**, **depth** and the **perimeter** of puddles? The perimeter is the length all the way around so this is where your string will come in handy!

We've completed this table as an example for you, see if you can complete the tables on the next page with the measurements of the puddles you find. Don't forget your waterproofs and have fun!

<p>Draw the outline shape of your puddle</p> 	<p>Write your measurements below:</p> <p>Width: 6 cms</p> <p>Length: 17 cms</p> <p>Depth: 1.5 cms</p> <p>Perimeter: 95 cms</p>
